CHAMELEON  
CONCRETE FINISHING SYSTEMS

# MARION BRUSH

## MANUFACTURING COMPANY

### OUR STORY

Marion Brush Manufacturing Company has been making specialized brush products since 1954. From its conception, the idea of combining speed, quality, and innovation has been an important core value.

In early 1992, after noticing that there was a need for a specialized brush that would assist contractors with extra wide pours that had limited room for handle use, we began work on a brush system that would change the way companies finish concrete.

The creation of the **CHAMELEON BRUSH SYSTEM** has made Marion Brush Company the "go to" for contractors who are looking for a faster and more effective way to finish their concrete pours. By offering the versatility of interchangeable bristles, the option for handleless finishing, and new cutting edge floating and finishing tools, Marion Brush has made its mark in history.

Today Marion Brush Company is working harder than ever as our team is creating new and specialized finishing products that give contractors an advantage because we know that...**THE KEY TO SUCCESS IS HOW YOU FINISH!**

Thanks for your interest in our company. We hope that our tools will give you and your team an advantage!

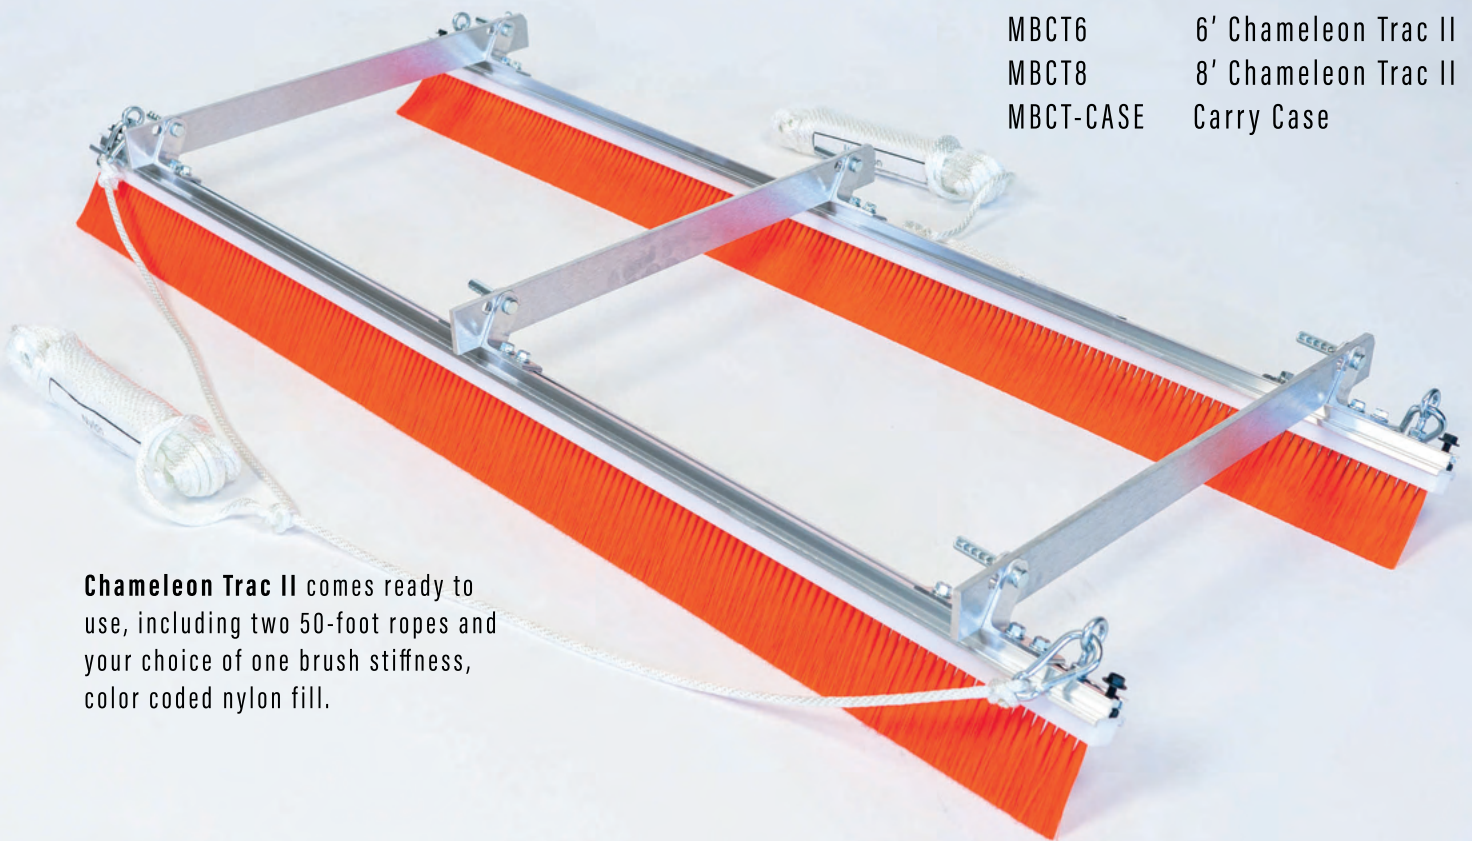

A handwritten signature in black ink that reads "Jeff McCaughey". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.

Jeff McCaughey and the Marion Brush Family

# CHAMELEON TRAC II

Handleless concrete finishing system (rope brush). Is pulled from side to side with ropes (eliminating excessive handle weight) to give you the most uniform textured finish on the market. Restrictions caused by using a handle are eliminated. Is excellent in confined areas where handles are awkward. Is able to finish concrete 50%-75% faster with our 4', 6', and 8' wide brushes. Offers different textures with color coded brush refills. Converts easily from handleless twin brush system into two individual brushes to be used with our Multi-Use Adapter (MBCTADAPT) and handles. Or converts into Bull Float with Brush or Fresno with Brush by simply ordering our Adapter Bar Kit (MBBAK or MBFAK). Optional Carry Case available (MBCT-CASE).

No.	Size
MBCT4	4' Chameleon Trac II
MBCT6	6' Chameleon Trac II
MBCT8	8' Chameleon Trac II
MBCT-CASE	Carry Case

**Chameleon Trac II** comes ready to use, including two 50-foot ropes and your choice of one brush stiffness, color coded nylon fill.

MBCT8-KIT	8' Chameleon Trac II Kit

\*Refills may be assorted with five textures available.  
See Color Coded Bristle Chart on pg. 3

## CHAMELEON TRAC II KIT

The Chameleon Trac II Kit is not only the best concrete finishing system on the market, but you will also be protecting your investment with its heavy duty aluminum carry case. The Multi-Use Adapter lets you convert easily from the patented handleless twin brush system into an individual brush to be used with bull float or telescopic handles. This kit comes with three different sets of texturing brushes (soft, medium, and stiff ) which can easily be changed on the job site.

# CHAMELEON

## SINGLE BRUSH SYSTEM

**Multi-Use Adapter**  
MBCTADAPT

Adjustable push-pull angled design uses sides of the bristle, not the ends, to produce a superior brush finish. Widest concrete finishing brush on the market. 3', 4', 6', and 8'. Five color coded texturing brushes to choose from (see Color Coded Bristle Chart on pg. 3). Our nylon resin, high density polyethylene block, and aluminum extruded channel, makes this the most durable brush on the market.

Single Chameleon comes with Multi-Use Adapter to be used with snap-on or  $\frac{3}{4}$ " acme threaded bull float or telescopic handles. When ordering, please specify brush texture using the Color Coded Bristle Chart on pg. 3

No.	Size
MBCT3S	3' Single Chameleon
MBCT4S	4' Single Chameleon
MBCT6S	6' Single Chameleon
MBCT8S	8' Single Chameleon

\*Refills may be assorted with five textures available. See Color Coded Bristle Chart on pg. 3

# CHAMELEON SINGLE KIT

## AVAILABLE IN 3', 4', 6', & 8'

No.	Size

MBCT4S-KIT	4' CHAMELEON SINGLE KIT
MBCT6S-KIT	6' CHAMELEON SINGLE KIT
MBCT8S-KIT	8' CHAMELEON SINGLE KIT

\*Kits come with soft, medium, and stiff refills. Refills may be assorted with five textures available. See Color Coded Bristle Chart on pg. 3

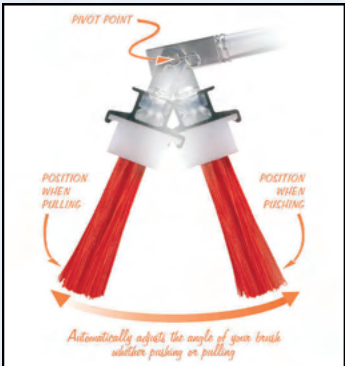

# Auto Glide

## CONCRETE FINISHING BRUSH

To be used with handles, automatically tilts on both push and pull passes.  
No need to lift your brush across your pour.

Available in five color coded texturing brush inserts - 24", 36", 48", and 72" widths.

When ordering, please specify brush texture using the Color Coded Bristle Chart on pg. 3.

No.	Size
MBCA24	24" Concrete Finishing Brush - Aluminum

MBCA4-KIT	4' AUTO GLIDE KIT
MBCA6-KIT	6' AUTO GLIDE KIT

\*Kits come with soft, medium, and stiff refills. Refills may be assorted with five textures available. See Color Coded Bristle Chart on pg. 3

## CONCRETE FINISHING BRUSH

Featuring the same superior nylon resin as in the Chameleon Finishing Brushes. Available in 24" and 36" widths.  $\frac{3}{4}$ " acme threaded hardwood maple brush block with recessed fitted area for our heavy duty telescopic handles or any bull float handle with  $\frac{3}{4}$ " acme threaded end. Angled fill for smoother use, lightweight for longer reaches. Four stiffness options to choose from.

Uniquely designed hardwood maple block to reduce weight. Filled with color coded nylon, which retains its shape and cleans well. When ordering, please specify brush texture using the Color Coded Bristle Chart on pg. 3

No.	Size
MBCF24	24" Conventional Brush
MBCF36	36" Conventional Brush
ML2272	6'-12' Two Section Aluminum Telescopic Handle
ML2318	6'-18' Three Section Aluminum Telescopic Handle
ML2324	8'-22' Three Section Aluminum Telescopic Handle

## SUPERIOR BRISTLES

Marion Brush Manufacturing Company makes fixing your bristles easy! By using a high-quality mendable material for bristles, they'll not only be easy to clean but, if your bristles get deformed, you can simply pour boiling water over them, fluff, and they will return to their original shape. It's as easy as...

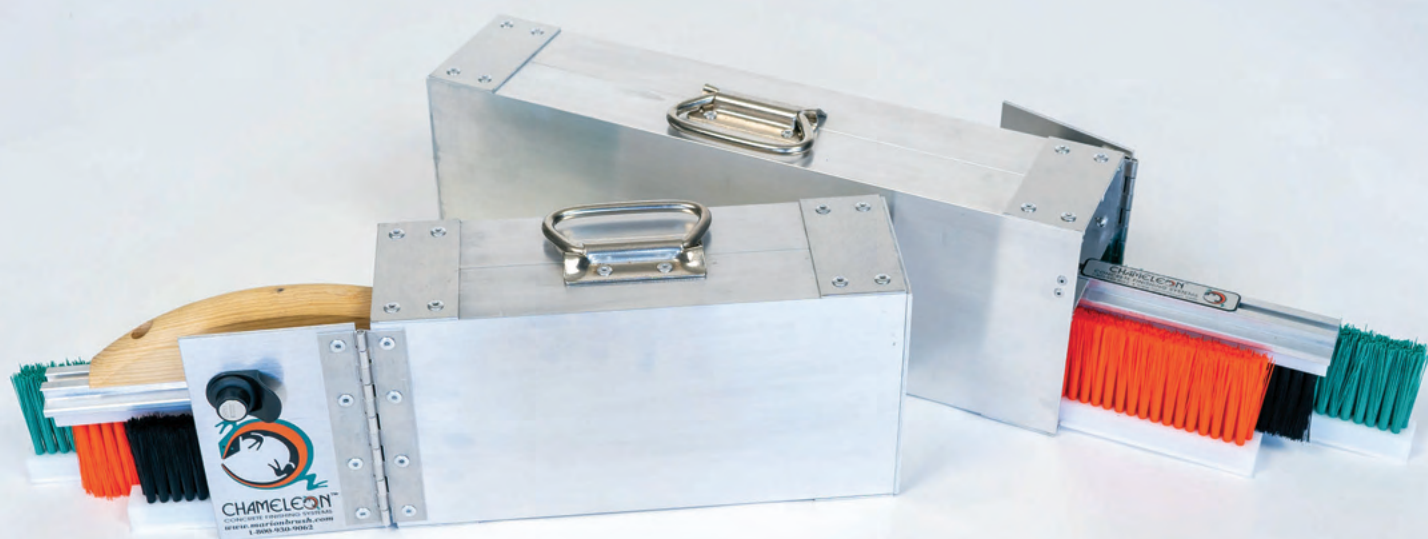

## CURB BRUSH

Our handy curb and step brush utilizes our Chameleon Interchangeable Brush Refills which can give you the versatility of up to 5 brushes in one! Available in 12" and 18" widths.

When ordering, please specify brush stiffness using the Color Coded Bristle Chart on pg. 3

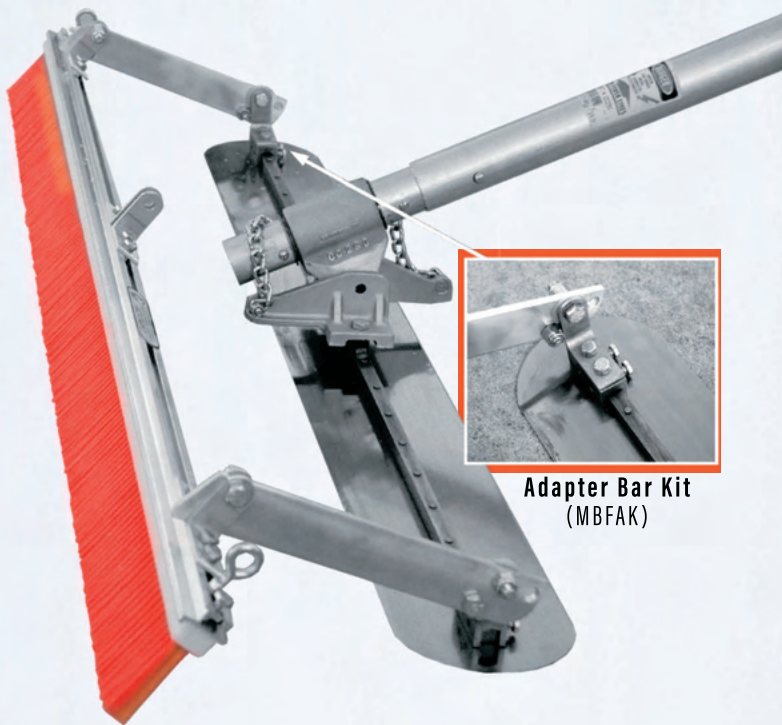

No.	Size
MBCCURB-12	12" Curb & Step Brush
MBCCURB-18	18" Curb & Step Brush
MBCCURB12-KIT	12" Chameleon Curb Brush Kit
MBCCURB18-KIT	18" Chameleon Curb Brush Kit

## CURB BRUSH KIT

This curb and step brush kit utilizes our Chameleon Interchangeable Brush Refills and offers the versatility of three brushes (soft, medium, and stiff) in one heavy duty carry case! Available in 12" and 18" widths.

When ordering, please specify brush stiffness using the Color Coded Bristle Chart on pg. 3

## FRESNO WITH BRUSH

Fresno and broom finish in one easy step. Brush finishes as you bring the fresno back to you (because of our unique pivoting system, brush won't dig into the slab but can be locked firm to give that extra downward brush pressure when needed.) Pivoting system lets you tilt brush back and out of the way if you need to work the slab prior to broom finishing. Five color coded texturing brushes to choose from.

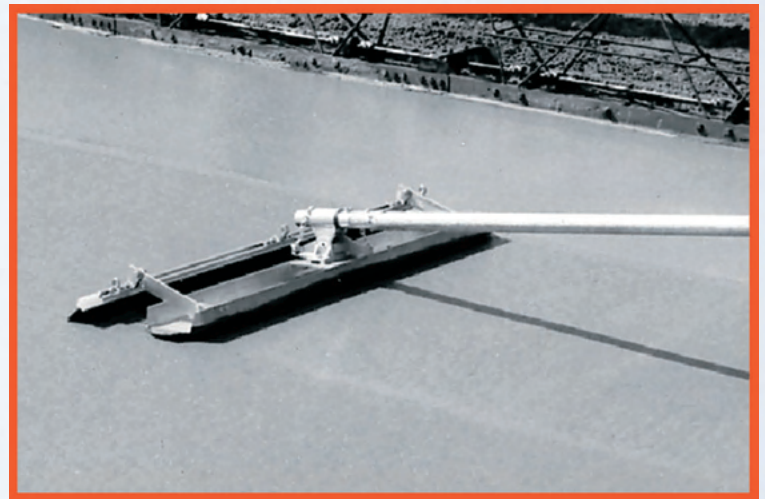

No.	Size
MBFBE36	36" Fresno with 4' Brush and E-Z Tilt mechanism
MBFBK36	36" Fresno with 4' Brush and Twister mechanism
MBFBE42	42" Fresno with 4' Brush and E-Z Tilt mechanism
MBFBK42	42" Fresno with 4' Brush and Twister mechanism
MBFBE48	48" Fresno with 4' Brush and E-Z Tilt mechanism
MBFBK48	48" Fresno with 4' Brush and Twister mechanism
MBFBA4	4' Brush with Fresno Adapter Bar Kit only
MBFAK	Fresno Adapter Bar Kit

## BULL FLOAT WITH BRUSH

Bull float and broom finish in one easy step. Brush finishes as you bring the float back to you (because of our unique pivoting system, the brush won't dig into the slab. Also can be locked firmly to give that extra downward brush pressure when needed). Pivoting system lets you tilt brush back and out of the way if you need to work the slab prior to broom finishing. Five color coded texturing brushes.

When ordering, please specify brush stiffness using the Color Coded Bristle Chart on pg. 3

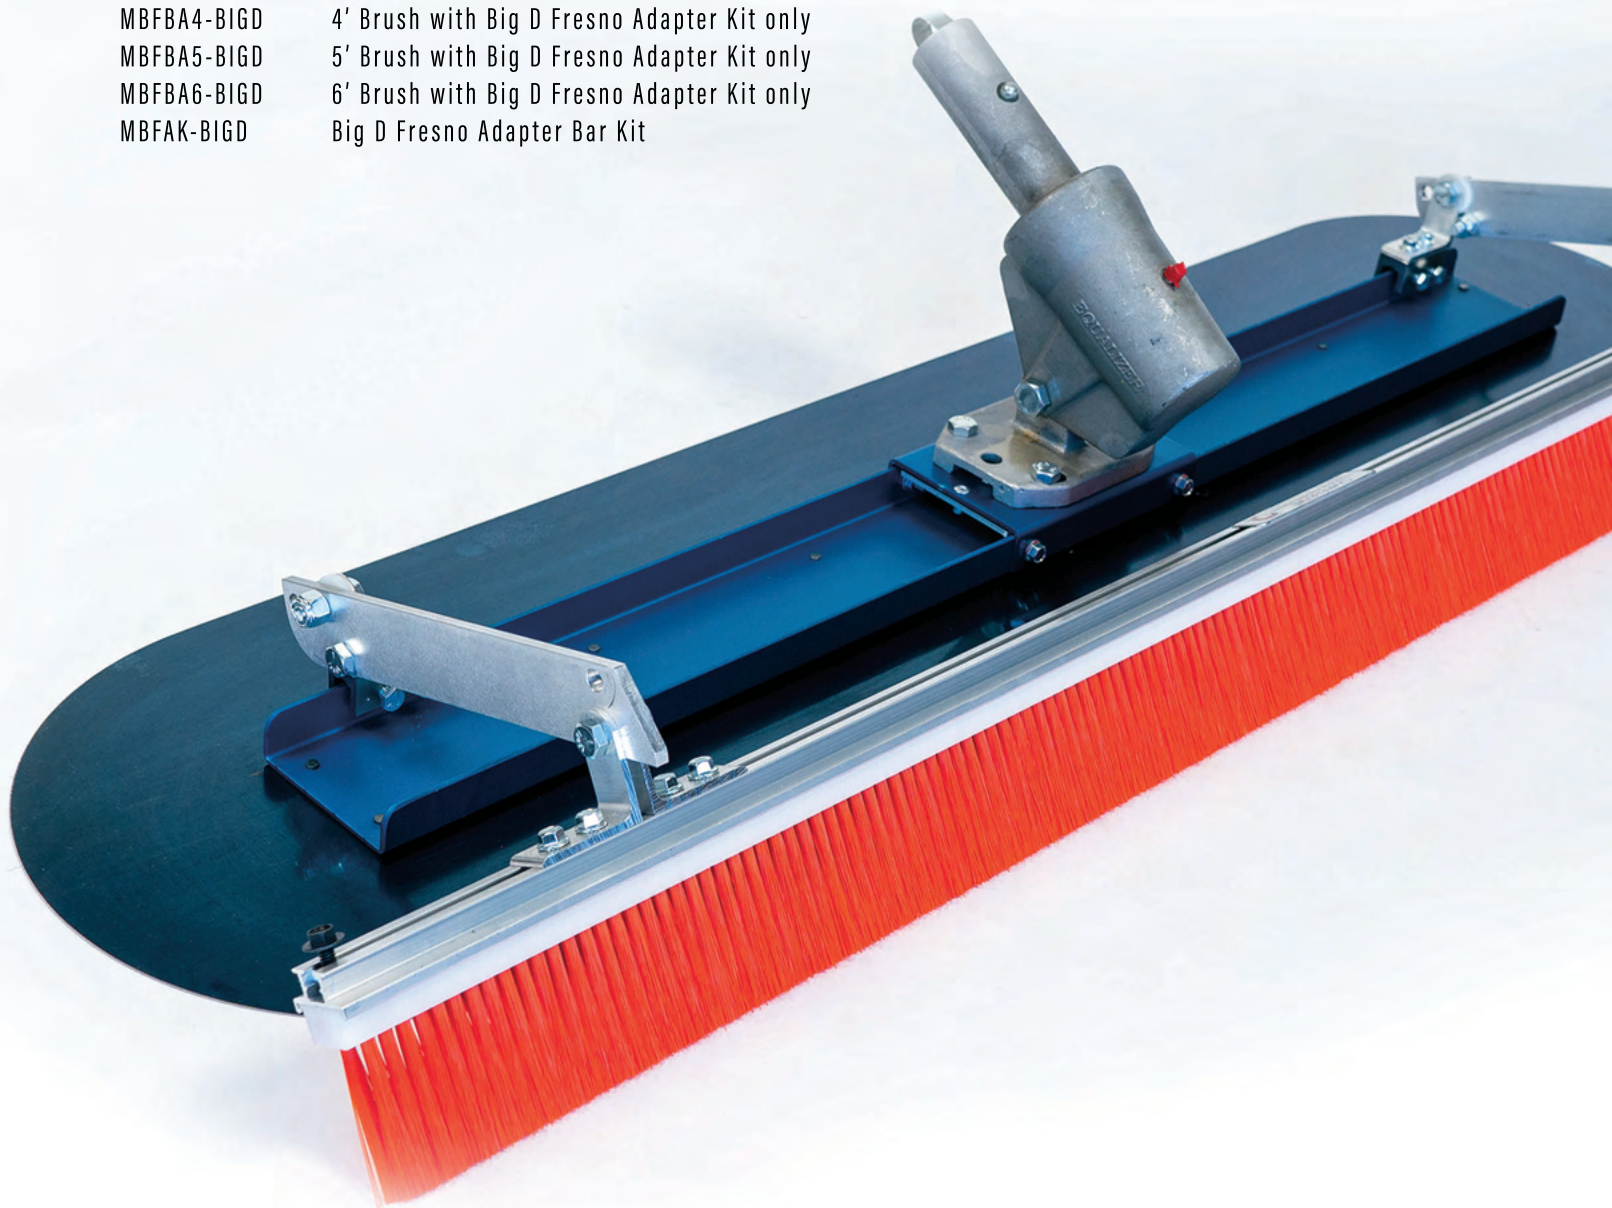

**Adapter Bar Kit (MBBAK)**

# BIG D FRESNO WITH BRUSH

A Big D Fresno and broom in one! This brush will finish as you bring the fresno back to you and our unique pivoting system means your brush won't dig into the slab. The system can also be locked firm to give extra downward brush pressure when you need it. Our special Adapter Bar Kit also allows you to tilt your brush back and out of the way if you need to work the slab prior to broom finishing. Five color coded texturing brushes to choose from. Available in 4' fresno with 4' brush, 5' fresno with 6' brush, and 6' fresno with 6' brush. When ordering, please specify brush stiffness using the Color Coded Bristle Chart on pg. 3

No.	Size

MBFBA6-BIGD	6' Brush with Big D Fresno Adapter Kit only
MBFAK-BIGD	Big D Fresno Adapter Bar Kit

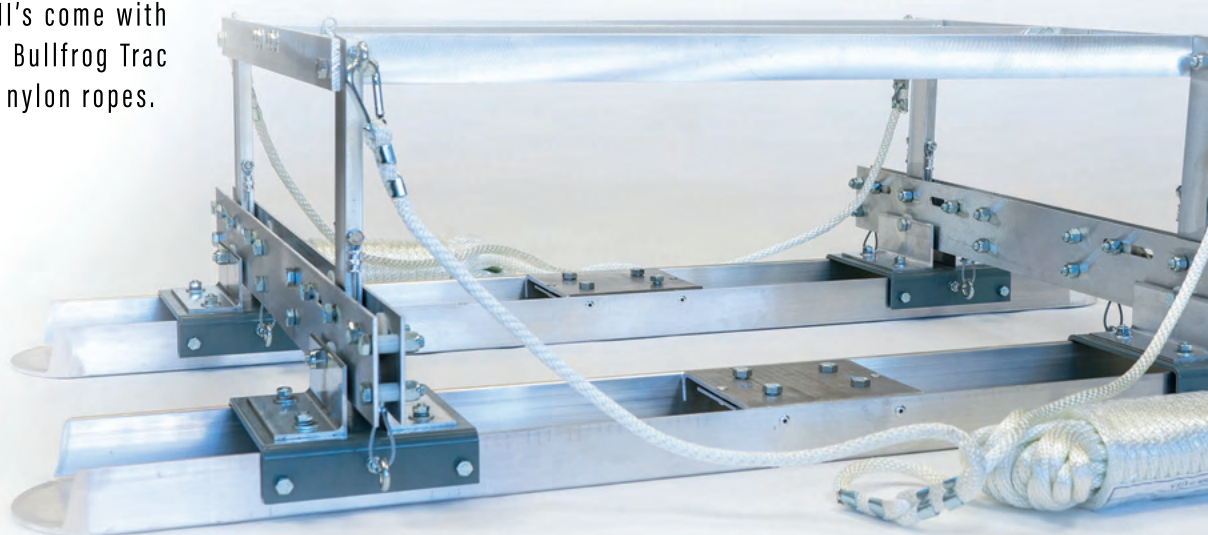

# BULLFROG TRAC II

Handleless Bull Float system (pulled from side to side with ropes). Gives an even and consistent floated surface no matter which way you pull it (no handle weight to affect the slab). Mechanism automatically tilts the head no matter which way you pull it (adjustable). Great for wide pours of 24 feet or more. Especially effective in confined areas where handles are clumsy and awkward. Available in 4', 6', and 8' widths. Mechanism can be purchased separately to be used with your 6-inch wide C-Channel floats.

4', 6', and 8' foot Bullfrog Trac II's come with two magnesium channel floats, Bullfrog Trac II mechanism, and two 50' 3/8" nylon ropes.

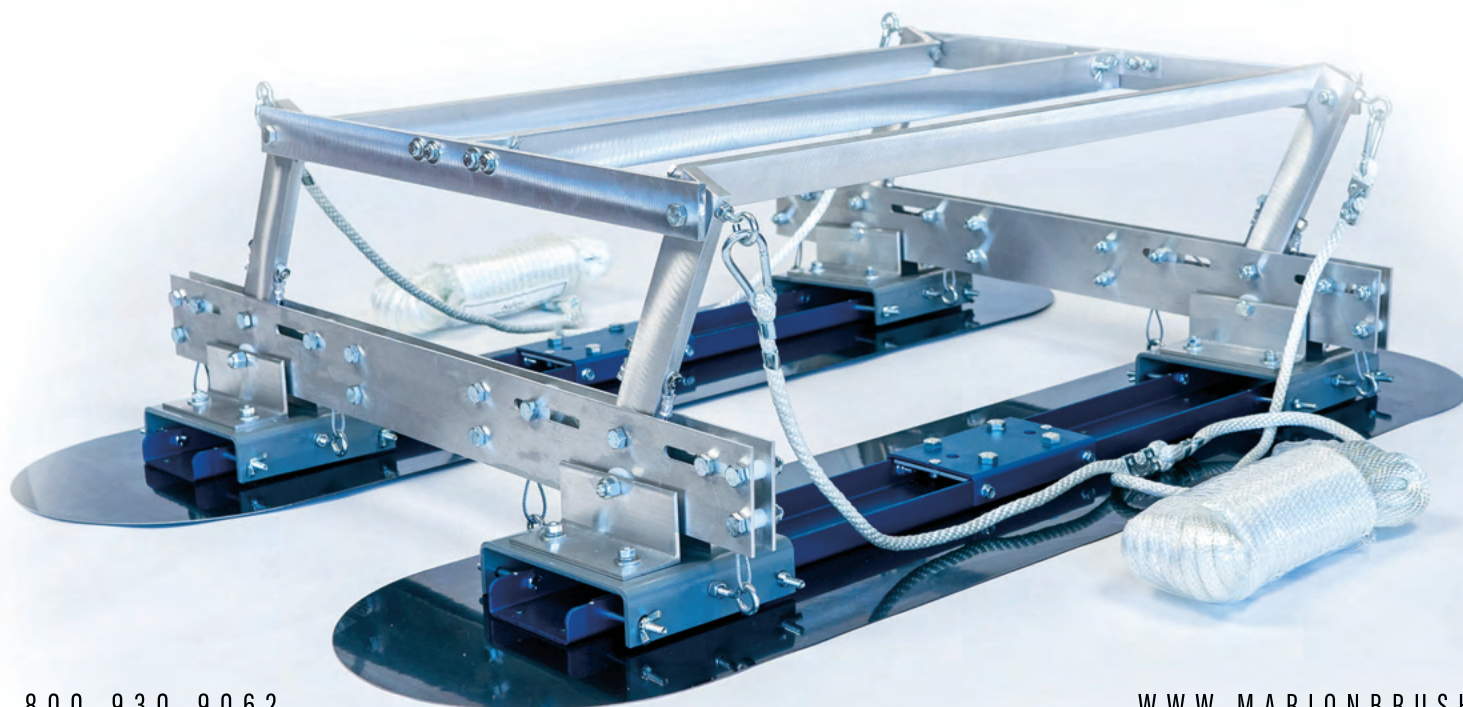

No.	Size
MBBF4	4' Bullfrog Trac II
MBBF6	6' Bullfrog Trac II
MBBF8	8' Bullfrog Trac II
MBBFMECH	Bullfrog Trac II Mechanism ONLY

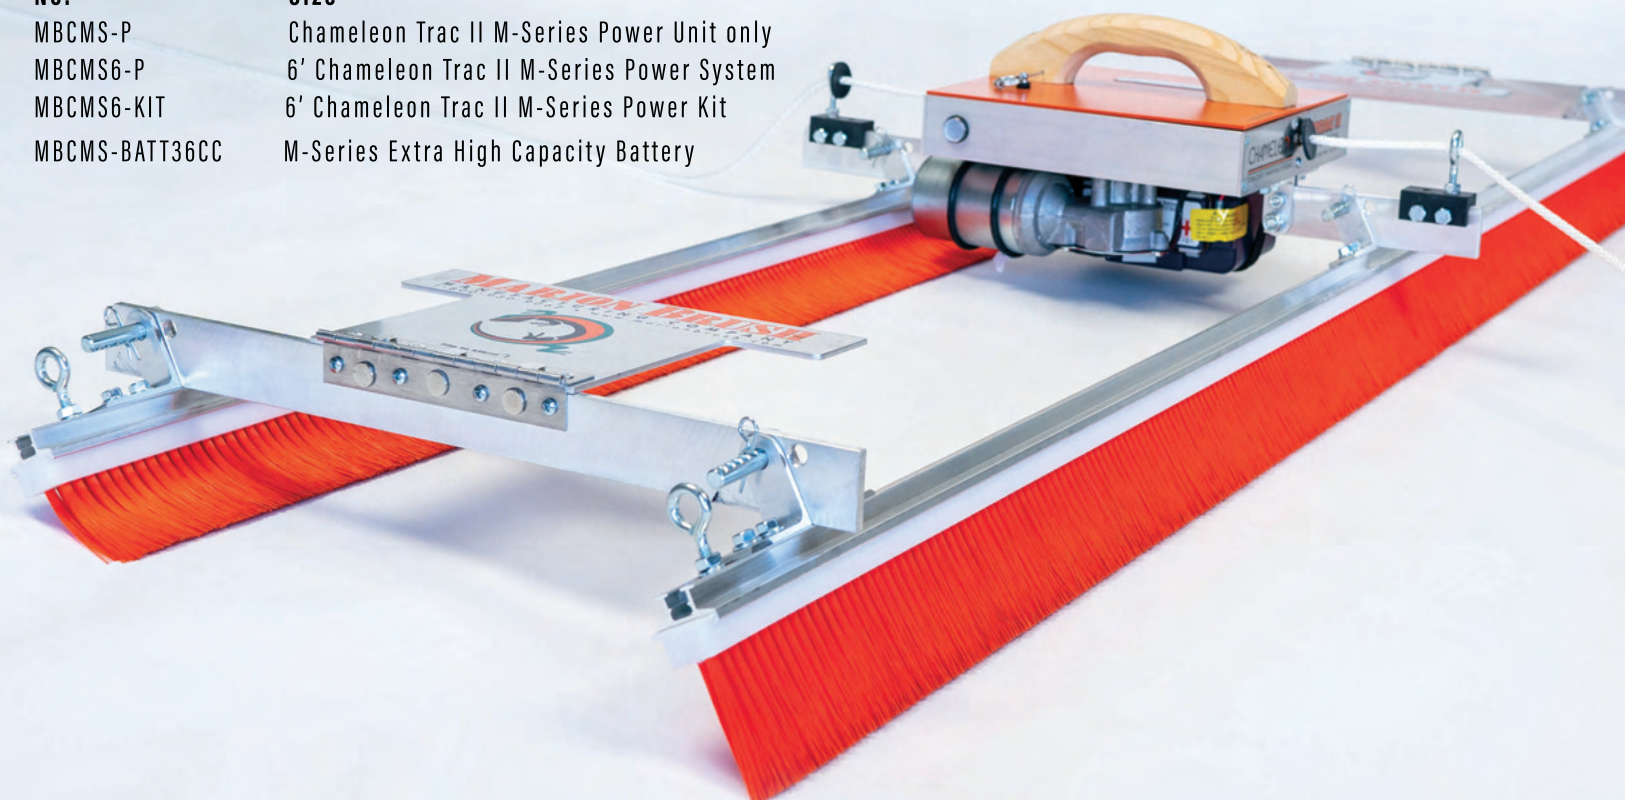

# BIG FOOT TRAC II

This system gives you a consistent fresno finished surface no matter which way you push it or pull it with no handle restriction. Great for pours of 24 feet or more. Big Foot Trac II comes with one 50' 3/8" nylon rope set. Available in 4', 5', and 6' widths.

## CHAMELEON TRAC II M-SERIES & TRAC II M-SERIES KIT

U.S. PATENT NO. 10,321,754

The Chameleon Trac II M-Series products are a motorized version of our traditional Chameleon Trac II. These products provide an even, consistent finish while increasing accuracy, improving long range performance, and decreasing arm strain on large pours. The Chameleon Trac II M-Series can be purchased as a stand-alone System or as a Kit. Our 6' System comes with our 6' Chameleon Trac II in your choice of brush stiffness, the M-Series \*Power Unit, two 100' tracking ropes, hardware, a battery, and a charger. This unit will provide 10,000-12,000 square feet of finishing on a single charge. Standard 100' ropes are also included for traditional manual operation. Additional batteries sold separately. Our 6' Kit comes with all of the same items as the 6' System plus a Heavy Duty Brush Carry Case, 2 additional sets of texturing brushes, as well as a Multi-Use Handle Adapter.

\*Power Unit can also be purchased separately to be added to an existing 6' Chameleon Trac II. Power Unit comes with two 100' tracking ropes, a battery, and a charger. Orange medium is our most recommended texture for the 6' Chameleon Trac II M-Series System.

# BULLFROG TRAC II M-SERIES

U.S. PATENT NO. 10,321,754

The Bullfrog Trac II M-Series is a motorized version of our traditional Bullfrog Trac II System. This system provides an even, more consistent floated finish while increasing accuracy, improving long range performance, and decreasing arm strain. This system is available in 4' and 6' widths. The system comes with an M-Series Power Unit, two 100' tracking ropes, hardware, a battery, charger, and two ribbed floats. (C-Channel floats are also available upon request) This unit is capable of floating 10,000-12,000 square feet on a single charge. 100' clipped ropes are also included for manual operation when needed.

# BIG FOOT TRAC II M-SERIES

U.S. PATENT NO. 10,321,754

The Big Foot Trac II M-Series is a motorized version of our traditional Big Foot Trac II System. This system provides an even, more consistent freso finish while increasing accuracy, improving long range performance, and decreasing arm strain. This system is available in 4', 5' and 6' widths. The system comes with a M-Series Power Unit, two 100' tracking ropes, hardware, a battery, charger, and two Big D fresnos. This unit can complete 10,000-12,000 square feet on a single charge. 100' clipped ropes are also included for manual operation when needed.

# PRAYING MANTIS C-CHANNEL

PATENT PENDING

The Praying Mantis C-channel Float with Motorized Brush Lift is like our traditional C-channel Float with Brush, but this unit is motorized. With just the push of a button, our special actuated Adapter Bar Kit remotely lifts and lowers your finishing brush. This allows you to work the slab with or without the brush engaged. When the brush is lowered for finishing, our unique pivoting system keeps your brush weight consistent and prevents digging into the slab. There are 5 colors/textures to choose from. Available in 4', 6', and 8' widths.
